

Workshop Sessions

February
25-26, 2013

The roadway safety industry is always changing. ATSSA education workshops are designed to deliver the most important information in the industry. Each workshop presenter is a respected industry expert who will answer your questions and help you bring home solutions you can use right away. The time you spend with us in February will be useful to you throughout the entire year.

ATSSA Quality Control Guidelines for Temporary Traffic Control Devices

Updated for 2013 CEU .15

These guidelines have been developed in an effort to offset the deterioration in appearance of TTC work zone devices. This handbook provides assistance to evaluate the condition of used devices to assure continued effectiveness. The 2013 version has been updated to reflect new regulations, new technologies and provide a better visual guide.

California MUTCD CEU .15

As of January 13, 2012, California Department of Transportation adopted the California Manual on Uniform Traffic Control Devices (California MUTCD) 2012 edition to provide for uniform standards and specifications for all official traffic control devices in California. CalTrans experts will discuss the changes to the California MUTCD. Find out how your business may be impacted and what you need to do to be in compliance.

FAQs, Product Eligibility Process, Roadside Design Guide and More . . . CEU .15

The Federal Highway Administration will provide an in-depth review of the latest FAQs as well as the new FHWA Product Eligibility Process. How FHWA sees the Roadside Design Guide being implemented by the states will also be discussed. Be sure to join us for this informative session.

Getting Teens Involved in Roadway Infrastructure Safety CEU .15

Most programs targeted at the teens are a series of "don'ts" . . . don't drink and drive, text and drive, have too many teens in a car, etc. While these are all worthwhile efforts, The American Traffic Safety Services Foundation has teamed with the National Organizations for Youth Safety (NOYS) and the Roadway Safety Foundation to develop a TeenRSA Program whereby teens learn about the roadway itself. Come hear about our pilot efforts and how you can sponsor a program in your community.

**Deadline for Pre-Registration
is January 25, 2013**
